design and manufacturing.

Who we are

At Globeart Group, we are an international collective of companies specializing in the design, manufacturing, and implementation of tailored project solutions. With a deep understanding of global trends and local needs, we transform ideas into fully realized environments.

What we do

As a full-service project solution center, we deliver turnkey services across a wide range of commercial spaces — including hotels, restaurants, cafés, and retail stores. Our expertise also extends to the creation of bespoke furniture and interiors, such as custom kitchens, bathrooms, cabinets, and specialty furnishings. From concept to completion, Globeart Group is your trusted partner in crafting functional, beautiful, and purpose-driven spaces.

PROJECT PRODUCTION PROCESS

01. Introduction

After the company introduction, customer expectations and needs are analyzed, and the most suitable project type is determined.

02. Draft Project

Design concepts specific to the project are prepared, and the project type is determined. At this stage, the proposed solutions are detailed with presentations, and the project vision is clarified.

03. Project Design Proposal

In the design process, layout plans, production drawings, 3D visuals, and all files for production are prepared. It is carried out meticulously from the stage of idea to implementation; thus, all technical and visual requirements of your project are fully met.

*Design services are assessed and priced separately.

04. Project Price Proposal

For projects where all design and material details have been determined and production drawings have been completed, a production offer is given.

05. Project Production

The production process starts with the preparation of detail drawings, manufacturing drawings and the product tree.

Production is carried out according to the determined delivery plan, and packaging is carried out in accordance with global standards.

06. Logistics & Distribution

Logistics planning is carried out according to the delivery location, international transportation and customs procedures are managed professionally. Processes are monitored and regular information is provided to the customer. Shipments proceed in parallel with the processes of customs procedures and the business plans of contracted companies.

**Storage services are assessed and priced separately.

07. Application & Delivery

After evaluating the suitability of the application area to the working conditions, the assembly and delivery program is created and the process planning is made. All operations are completed flawlessly in line with the determined schedule and quality standards.

The logo for BSBAN, featuring the letters 'BSBAN' in a bold, white, sans-serif font. A red graphic element, consisting of two overlapping triangles forming a stylized 'A' or a chevron, is positioned between the 'B' and the 'N'.

METAL

ELECTRIC

A close-up photograph of a brown, tufted sofa armrest. The fabric has a fine, woven texture. The tufting creates a series of rounded, padded sections. The lighting is soft, highlighting the texture of the material.

UPHOLSTERY

A photograph of a person in a light blue polo shirt with a logo on the chest, working in a wood shop. They are using a hand tool to guide a piece of light-colored wood through a table saw. The background shows stacks of wood and workshop equipment.

WOOD

DESALLI

Design & Furniture

The Group carries out its design and production experiments under the Desalli brand and company, located in Milan, Italy.
